## Qualification Pack

### AGR/N4327: Prepare and maintain housing for broiler/layer birds

#### Description

This OS unit is about preparing and maintaining poultry sheds for rearing broiler/layer birds.

#### Scope

The scope covers the following :

- Prepare the housing area for broiler/layer birds
- Maintain the housing area for broiler/layer birds

#### Elements and Performance Criteria

##### *Prepare the housing area for broiler/layer birds*

To be competent, the user/individual on the job must be able to:

- PC1.** carry out micro-planning of activities for poultry business
- PC2.** identify a suitable location with optimum size and space for the construction of housing area for the broiler/layer birds
- PC3.** procure the required inputs for the establishment of the poultry farm
- PC4.** build and maintain proper housing, such as coops, pens, or barns, that offer protection from predators, weather, and extreme temperatures
- PC5.** prepare the housing area, adhering to the industry norms and recommendations
- PC6.** ensure birds have enough space to move and grow comfortably, following animal welfare standards
- PC7.** build nesting units for the egg-layers to facilitate proper hatching
- PC8.** provide adequate number of feeders, water holders and other equipment for the birds housed
- PC9.** monitor the supply of inputs as per the requirement of birds

##### *Prepare for seasonal and climatic variations*

To be competent, the user/individual on the job must be able to:

- PC10.** Install fans or sprinklers to combat heat stress during summers
- PC11.** Use additional bedding or heaters to maintain warmth during winters
- PC12.** Ensure sheds are leak-proof and birds remain dry during the monsoon

##### *Maintain the housing area for broiler/layer birds*

To be competent, the user/individual on the job must be able to:

- PC13.** follow cleaning routine on a regular basis
- PC14.** ensure the housing area is sanitized frequently, following the industry standards
- PC15.** ensure all the tools and equipment are routinely sanitized and stored in designated places as per the industry norms
- PC16.** regulate temperature, lighting, and ventilation in poultry houses to create optimal living conditions for bird health and productivity
- PC17.** follow the techniques which promote health and safety of the birds as per SOP.

## Qualification Pack

- PC18.** manage the problems arising while monitoring the housing in order to maintain health and safety of the birds, workers, helpers, etc.
- PC19.** ensure the disposal of waste materials is done in an eco-friendly manner, adhering to industry standards

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** rules and regulations pertaining to poultry welfare and farming
- KU2.** own job role & responsibilities and standard operating procedures
- KU3.** relevant legislation, standards, policies and procedures for preparation and management of poultry shed
- KU4.** relevant health and safety requirements applicable to the work environment
- KU5.** types of poultry housing
- KU6.** how to build nesting unit
- KU7.** required quantity and quality of materials and equipment required in the poultry shed for maintaining health and hygiene of birds
- KU8.** Seasonal and climatic management
- KU9.** potential hazards which may arise in the shed owing to the materials used or any equipment malfunction or by the birds/humans
- KU10.** factors to be considered while monitoring the poultry shed and environmental conditions
- KU11.** bio-security measures to be adopted in inter-farm transfer of feed, equipment and movement of man & material.
- KU12.** safe waste disposal techniques as per the industry norms
- KU13.** impact of not following the health, hygiene, safety and quality standards on birds, consumers and the business
- KU14.** seasonal management techniques to combat the climatic stress to the birds

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** note the information communicated by the workers and helpers
- GS2.** note the data which are required for record keeping purpose and maintain the process charts
- GS3.** stay updated with the latest knowledge by reading brochures, pamphlets, etc. about processes and equipment used in the concerned work area
- GS4.** maintain effective work relationship with other workers, helpers and customers
- GS5.** identify problems that may arise in carrying out tasks and take preventative action
- GS6.** plan and organize the work orders & activities with the workers to utilize time and equipment effectively

### AGR/N4328: Prepare the poultry shed to receive and manage the chicks/birds

#### Description

This OS unit is about the the preparation of the poultry shed to receive the chicks/birds.and manage them.

#### Scope

The scope covers the following :

- Receive and handle the chicks/birds
- Manage chicks/birds for better livability and productivity

#### Elements and Performance Criteria

##### *Receive and handle the chicks/birds*

To be competent, the user/individual on the job must be able to:

- PC1.** wear suitable personal protective equipment when receiving and handling poultry birds in their accommodation/sheds
- PC2.** ensure the the shed and its surrounding area is thoroughly sanitized before the receipt of new batch of chicks/birds
- PC3.** prepare and arrange adequate quantity of materials and establish suitable equipment necessary for the reception of birds prior to their arrival
- PC4.** maintain a conducive environment during the arrival and establishment of chicks/birds
- PC5.** carry out brooder/shed management with the required stock density, following the industry guidelines
- PC6.** adhere to standard operating procedures while carrying out work
- PC7.** ensure the chicks/birds are introduced into the accommodation with minimum stress and good health & hygiene

##### *Manage chicks/birds for better livability and productivity*

To be competent, the user/individual on the job must be able to:

- PC8.** ensure adequate light and heat in the area to make the place conducive for proper growth and development of chicks/birds
- PC9.** ensure adequate feed and water is available with sufficient area for the chicks/birds to move around as recommended in the SOP
- PC10.** arrange for bio-security measures and vaccination schedules for better health of chicks/birds
- PC11.** ensure balanced feed and sanitized water is being provided to chicks/birds
- PC12.** maintain the quality of litter with optimum moisture and ammonia level by racking
- PC13.** Regularly clean and replace the bedding material to maintain hygiene
- PC14.** monitor and assess the condition of chicks/birds to ensure their health and safety
- PC15.** ensure the disposal of waste materials is done in an eco-friendly manner, adhering to industry standards
- PC16.** Use poultry droppings as organic fertilizer or sell it to local farmers

## Qualification Pack

### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** rules and regulations pertaining to poultry welfare and farming
- KU2.** own job roles & responsibilities and standard operating procedures
- KU3.** types of housing areas suitable for the chicks/birds
- KU4.** appropriate stocking density as per the age of birds
- KU5.** quantity & quality of materials and equipment required in the poultry shed for maintaining health and hygiene of birds
- KU6.** the signs of stress, normal/abnormal behavior in birds and its alleviation methods
- KU7.** management practices to be adopted for different climatic condition to achieve the optimum production
- KU8.** disinfection process for poultry shed, equipment and other tools
- KU9.** impact of not following the health, hygiene, safety and quality standards on birds, consumers and the business
- KU10.** waste disposal techniques for litter & discarded feed as per the industry guidelines and policies
- KU12.** Litter management and manure utilization

### Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** note the information communicated by the workers and helpers
- GS2.** read poultry related information to stay updated with the latest developments in the poultry industry
- GS3.** maintain effective work relationship with other workers, helpers and customers
- GS4.** identify problems that may arise in carrying out tasks and take preventative action
- GS5.** plan and organize the work orders & activities with the workers to utilize time and equipment effectively
- GS6.** analyze the information gathered from one's observation and experiences

### AGR/N4329: Maintain the supply of feed and water for poultry birds

#### Description

This OS unit is about procuring, storing and providing feed and water to the birds.

#### Scope

The scope covers the following :

- Receive and store feed matter
- Provide feed and water to broiler/layer birds

#### Elements and Performance Criteria

##### *Receive and store feed matter*

To be competent, the user/individual on the job must be able to:

- PC1.** check the quantity, quality and type of feed for suitability of feeding to the birds
- PC2.** report any issue with quantity, quality or type of the feed received to the concerned person immediately
- PC3.** ensure the feed is stored safely over wooden pallets to prevent moisture, spoilage, contamination or fungal/pest infestation
- PC4.** assess the quality of stored feed on a routine basis for any moisture or fungal/pest infestation and take necessary action
- PC5.** assess and maintain the feed stock levels as per the requirement of birds in the poultry house

##### *Provide feed and water to the broiler/layer birds*

To be competent, the user/individual on the job must be able to:

- PC6.** ensure to wash hands appropriately before and after handling bird feed
- PC7.** ensure all the equipment, PPE, etc. being used to prepare, distribute and manage feed and water are sanitized
- PC8.** develop and follow feeding schedules to ensure poultry receive appropriate and balanced nutrition based on their age and purpose (meat production or egg-laying)
- PC9.** prepare the correct amount of bird feed as directed in the feeding plan in a way that minimizes wastage
- PC10.** ensure proper distribution of balance feed and sanitized water to the birds
- PC11.** use the distribution cup to distribute the feed
- PC12.** provide appropriate feed supplements essential for bird nutrition and growth, if necessary
- PC13.** adopt feed grams as per the birds' age and body-weight gained
- PC14.** ensure safe disposal of stale and unused feed & water periodically following the SOP
- PC15.** monitor the feed & water consumption of the birds and take necessary action in case of any discrepancy
- PC16.** modify the distribution of feed and water process according to the season

## Qualification Pack

### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** job responsibilities and duties as per the industry policies and guidelines
- KU2.** procedures of maintaining & sanitizing of feed and water equipment as per the SOP
- KU3.** different types of feed and supplements
- KU4.** principles of stock rotation
- KU5.** the quantity and type of feed and water requirements of birds as per their breed, season and growth stage
- KU6.** impact of storing feed and water in unclean & improper conditions on birds health and the business
- KU7.** management techniques of different pests and diseases which affect the feed
- KU8.** waste disposal techniques for discarded feed as per the industry guidelines and policies

### Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate relevant information to the workers and helpers
- GS2.** stay updated with the latest information in the poultry industry by reading newspaper, brochure, etc
- GS3.** note the information required for the record keeping purpose
- GS4.** identify problems that may arise in carrying out tasks and take preventative action
- GS5.** maintain effective work relationship with other workers, helpers and customers
- GS6.** plan and organize the work orders & activities with the workers to utilize time and equipment effectively
- GS7.** analyze the information gathered from one's observation and experiences

### AGR/N4330: Maintain health of birds at poultry farm

#### Description

This OS unit is about maintaining good health and well-being of the poultry birds

#### Scope

The scope covers the following :

- Monitor the health and well-being of birds
- Provide basic treatment to ailing birds

#### Elements and Performance Criteria

##### *Monitor the health and well-being of birds*

To be competent, the user/individual on the job must be able to:

- PC1.** monitor the biosecurity measures such as human spray, food dip, vehicle dip/spray and movement of predator animals
- PC2.** ensure the birds are treated in a manner which complies with relevant regulations, minimizes any likelihood of stress and injury while maintaining their health and well-being
- PC3.** ensure sufficient stocking density for movement and comfort of birds
- PC4.** regularly observe for signs of illness, abnormal behavior, or growth rates in birds
- PC5.** carry out debeaking of poultry birds at an appropriate age
- PC6.** carry out regular deworming of poultry birds
- PC7.** observe for any clinical signs for the prevalence of any disease, and take necessary action
- PC8.** check for the incidence of any ecto-parasites in birds
- PC9.** follow the recommended vaccination schedule for immunizing the birds against diseases
- PC10.** take veterinary assistance, if there is any symptom of diseases in the flock
- PC11.** ensure specific measures are in place to prevent the spread of any pest or disease and promote good health and well-being of birds
- PC12.** monitor the safe disposal of the poultry waste

##### *Provide basic treatment to ailing birds*

To be competent, the user/individual on the job must be able to:

- PC13.** store the emergency drugs and vaccines for use, in case of any disease outbreak
- PC14.** use only uncontaminated and prescribed medication for the intended birds
- PC15.** ensure the correct techniques are employed to give the specified treatment at the correct time
- PC16.** report any difficulties, in administering treatments, immediately to the concerned authority
- PC17.** record the vaccination and medication details in the concerned register
- PC18.** observe closely the response to treatment given to the birds, and report to the concerned person

#### Knowledge and Understanding (KU)

## Qualification Pack

The individual on the job needs to know and understand:

- KU1.** relevant legislation, standards, policies and procedures for management of poultry farm
- KU2.** own job role & responsibilities and standard operating procedures
- KU3.** impact of not following the health, hygiene, safety and quality standards on birds, consumers and the business
- KU4.** preventive care methods for ensuring health and well being of birds
- KU5.** waste disposal techniques as per the industry guidelines and policies
- KU6.** relevant health and safety requirements applicable to the work environment
- KU7.** physical appearance and movement of healthy birds
- KU8.** normal and abnormal behavioral signs in birds
- KU9.** characteristics of the breed according to growth stage
- KU10.** importance of debeaking of poultry birds
- KU11.** method of deworming of poultry birds
- KU12.** possible sources of contamination to the medication and medical equipment
- KU13.** different diseases infecting poultry birds, recommended vaccines and their schedule
- KU14.** mode of vaccination
- KU15.** techniques and methods of administering prescribed basic healthcare treatments
- KU16.** standard procedures followed in case of any health emergency or accident as per the workplace guidelines
- KU17.** bio-security measures to be adopted in the management of a poultry farm
- KU18.** use of first aid for poultry health care and treatment

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** note the information communicated by the supervisor
- GS2.** stay updated with the latest developments in poultry farming by reading brochures, pamphlets, etc.
- GS3.** maintain effective work relationship with other workers, animal health workers and veterinarians
- GS4.** comprehend the information given by the veterinarians/animal health workers
- GS5.** identify problems that may arise in carrying out tasks and take preventative action
- GS6.** analyze the information gathered from one's observation and experiences

## Qualification Pack

### AGR/N4331: Carry out collection of eggs and lifting of broiler birds for market

#### Description

This OS unit is about harvesting eggs from the layer birds and lifting of broiler/meat birds for marketing.

#### Scope

The scope covers the following :

- Collect eggs for marketing
- Lift birds for the meat market

#### Elements and Performance Criteria

##### *Collect eggs for marketing*

To be competent, the user/individual on the job must be able to:

- PC1.** assess the poultry shed to roughly estimate the number of eggs laid by the birds
- PC2.** ensure the eggs are collected on a regular basis in cushioned trays to avoid any crack or breakage
- PC3.** ensure that hygiene standards are met at the time of egg collection as per the industry norms
- PC4.** grade and store the collected eggs
- PC5.** build relationships with local retailers, wholesalers, and end consumers
- PC6.** arrange suitable mode for transportation of table/hatching eggs
- PC7.** sell the eggs through different marketing channels

##### *Lift birds for the meat market*

To be competent, the user/individual on the job must be able to:

- PC8.** monitor weight gain and prepare broilers for market on time
- PC9.** remove non-productive or weak birds from the flock
- PC10.** lift the birds during cool hours or at night time to avoid stress and shrinkage
- PC11.** place the lifted birds into plastic crates or aluminium modules designed with good ventilation and safety attributes
- PC12.** ensure the transportation of live birds is done with care and precaution maintaining full safety standards
- PC13.** market the birds as live birds or for wet markets/processing plant

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** relevant legislation, standards, policies and procedures for management of poultry birds
- KU2.** relevant health and safety requirements applicable to the work environment

## Qualification Pack

- KU3.** own job roles & responsibilities and standard operating procedures
- KU4.** impact of not following the health, hygiene, safety and quality standards on birds, consumers and the business
- KU5.** quality signs for identifying the poor and good layer birds
- KU6.** quality signs for identifying the birds which are fit for harvesting
- KU7.** how to maintain a conducive environment for collecting eggs and lifting of birds
- KU8.** different techniques and methods employed as per the industry guidelines for collection of eggs and lifting of birds
- KU9.** different marketing channels for eggs/broiler birds
- KU10.** how to approach institutional buyers in the region

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** note the information communicated by the workers
- GS2.** stay updated with the latest development in poultry farming by reading brochures, pamphlets, etc.
- GS3.** maintain effective work relationship with the workers, helpers and customers
- GS4.** communicate clearly and effectively with the stakeholders
- GS5.** identify and think through the problem, evaluate the possible solution(s) and adopt an optimum /best possible solution(s)
- GS6.** plan and organise the work orders & activities with the workers to utilise time and equipment effectively
- GS7.** analyse the requirement of customers and work accordingly
- GS8.** analyze the information gathered from one's observation and experiences

## Qualification Pack

### AGR/N4332: Undertake sanitization and biosecurity measures for the replacement stock

#### Description

This OS unit is about sanitizing the shed and complying with the biosecurity measures for the replacement stock.

#### Scope

The scope covers the following :

- Sanitize the shed after lifting the birds
- Comply with the bio-security standards

#### Elements and Performance Criteria

##### *Sanitise the shed after lifting the birds*

To be competent, the user/individual on the job must be able to:

- PC1.** plan in advance for the post-harvest cleanout
- PC2.** carry out dry and wet cleaning procedure
- PC3.** ensure all the equipment, feed & water bowls, electrical appliances in the shed are taken out for maintenance and upkeep
- PC4.** use a high pressure hose to clean the whole shed thoroughly
- PC5.** white wash the floor and side walls
- PC6.** carry out terminal disinfection with appropriate fumigants
- PC7.** segregate waste into different categories
- PC8.** deposit recyclable and reusable material at identified location
- PC9.** dispose non-recyclable waste appropriately

##### *Comply with the biosecurity standards*

To be competent, the user/individual on the job must be able to:

- PC10.** minimize the human and vehicle traffic with precaution
- PC11.** provide signage boards for directions and entry restrictions
- PC12.** prevent the stray animals and wild birds entering into the farm premises
- PC13.** provide foot dip, vehicle dip and hand wash wherever necessary
- PC14.** follow suitable pest control measures
- PC15.** ensure the workers comply with the industry's safety and hygiene norms viz. use of sanitizers, wearing PPE, etc
- PC16.** ensure safe disposal of dead birds and other poultry waste, as per the industry norms

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

## Qualification Pack

- KU1.** relevant legislation, standards, policies and procedures for management of poultry birds
- KU2.** own job responsibilities and duties as per the industry policies and guidelines
- KU3.** method of cleanout post-harvesting
- KU4.** procedures of maintaining and sanitizing of feed and water equipment
- KU5.** management techniques of different pests and diseases
- KU6.** safe waste disposal methods for litter, discarded feed, dead birds and other poultry waste
- KU7.** impact of not following proper techniques and methods of sanitising and waste disposal on birds' health and the business
- KU8.** causes of disease spread and methods of preventing disease spread from humans and other birds and animals and vice-versa
- KU9.** regulations for bird hygiene and proper sanitized environment for bird rearing

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** note the information communicated by the workers
- GS2.** stay updated with the latest development in poultry farming by reading brochures, pamphlets, etc.
- GS3.** maintain effective work relationship with the workers
- GS4.** identify problems that may arise in carrying out tasks and take preventative action
- GS5.** plan and organise the work orders & activities with the workers to utilise time and equipment effectively
- GS6.** identify problems that may arise in carrying out tasks and take preventative action
- GS7.** analyse critical points in day to day tasks through experience and observation

## Qualification Pack

### AGR/N4334: Carry out documentation and record-keeping at a small poultry farm

#### Description

This OS unit is about preparing relevant documents and maintaining records related to processes, inputs, produce, etc. at a small poultry farm.

#### Scope

The scope covers the following :

- Document and maintain records of layer/broiler birds
- Prepare records related to poultry production
- Document and maintain financial records of the poultry farm

#### Elements and Performance Criteria

##### *Document and maintain records of layer/broiler birds*

To be competent, the user/individual on the job must be able to:

- PC1.** maintain records of feed consumption, water consumption and egg production of layers
- PC2.** maintain records of feed consumption, water consumption, weight, average daily gain, days on feed and processing date for broilers

##### *Prepare records related to poultry production*

To be competent, the user/individual on the job must be able to:

- PC3.** document and maintain the records of vaccination schedules, illness occurrences, and treatments
- PC4.** document and maintain the records of mortality rate of birds
- PC5.** prepare and maintain records of quantity of feed, amount of water, disinfectants, etc. being used in the poultry shed
- PC6.** maintain the records of number of egg trays and meat birds for marketing to keep a track of input/output ratio
- PC7.** maintain a note of any disease outbreaks and measures undertaken

##### *Prepare and maintain financial records of the poultry farm*

To be competent, the user/individual on the job must be able to:

- PC8.** prepare and maintain financial records of inputs purchased and other costs incurred including labour
- PC9.** maintain records of the monetary value of the sale of the produce
- PC10.** maintain records of revenue and profit earned to assess business performance

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** relevant legislation, standards, policies and procedures for management of poultry farm

## Qualification Pack

- KU2.** own job role & responsibilities and standard operating procedures
- KU3.** standards of maintaining records and documents as per the industry guidelines
- KU4.** how to calculate B:C ratio
- KU5.** how to operate a computer

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** note the information communicated by the workers and helpers
- GS2.** note the data required for record keeping purpose
- GS3.** maintain effective work relationship with other workers and customers
- GS4.** identify problems that may arise in carrying out tasks and take preventative action
- GS5.** analyze the information gathered from one's observation and experiences

## Qualification Pack

### AGR/N4316: Ensure safety, hygiene and sanitation of poultry farm

#### Description

This OS unit is about maintaining safety and hygiene of birds and workers in the poultry farm.

#### Scope

The scope covers the following :

- Ensure a safe and hygienic environment for birds and poultry workers
- Ensure compliance with appropriate emergency procedures

#### Elements and Performance Criteria

##### *Ensure a safe and hygienic environment for birds and poultry workers*

To be competent, the user/individual on the job must be able to:

- PC1.** ensure compliance with food safety and hygiene regulations of the industry
- PC2.** ensure personal hygiene and safety is maintained by the workers and other personnel by using PPE, whenever required
- PC3.** ensure all work procedures are performed as per the Standard Operating Procedure (SOP)
- PC4.** ensure precautionary measures are undertaken while handling chemicals/disinfectants/fumigants/vaccines/medicines
- PC5.** ensure that the facility and equipment being used are sanitized as per the industry standards
- PC6.** perform duties in a manner which minimizes environmental damage
- PC7.** ensure all the issues and incidents are reported to the concerned authority, and dealt with on a priority basis in time
- PC8.** ensure the monitoring and maintenance of poultry sheds and equipment is performed periodically
- PC9.** ensure the disposal of poultry farm waste is done in an eco-friendly manner, in accordance with industry standards
- PC10.** carry out workplace checklist audits before and after work to ensure safety and hygiene

##### *Ensure compliance with appropriate emergency procedures*

To be competent, the user/individual on the job must be able to:

- PC11.** ensure the precautionary measures for dealing with emergencies are followed at all times
- PC12.** ensure that first aid treatment is provided to any injured, in case of an accident
- PC13.** ensure that emergency equipment and first aid kits are placed at designated locations in the facility

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** relevant legislation, standards, policies and procedures for management of poultry farm

## Qualification Pack

- KU2.** organizational practices of managing a proper work environment and physical infrastructure of a poultry farm
- KU3.** relevant health and safety requirements applicable to the work environment
- KU4.** own job role & responsibilities and standard operating procedures
- KU5.** personal hygiene requirements
- KU6.** standard procedures followed in case of any health emergency or accident
- KU7.** possible physical, chemical and biological hazards and methods of prevention of various hazards
- KU8.** bio-security measures to be adopted for the management of a poultry farm
- KU9.** waste disposal techniques as per the industry guidelines and policies
- KU10.** precautionary measures of using and storing various chemicals at the workspace
- KU11.** impact of not following the health, hygiene, safety and quality standards on birds, consumers and the business

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** note the information communicated by the workers and supervisors
- GS2.** stay updated with the latest development in poultry farm management by reading brochures, pamphlets, e-content, etc.
- GS3.** maintain effective work relationship with other workers, supervisors and other stakeholders
- GS4.** write information documents to internal departments and teams
- GS5.** plan and organize the work activities with the supervisors to utilize time and equipment effectively
- GS6.** identify problems that may arise in carrying out tasks and take preventative action following workplace procedures
- GS7.** analyze the information gathered from one's observations and experiences
- GS8.** use acquired knowledge of the process for identifying and handling issues

## Qualification Pack

### AGR/N9908: Undertake basic entrepreneurial activities for small enterprise

#### Description

This OS unit is about undertaking basic entrepreneurial or business activities in the agriculture sector.

#### Scope

The scope covers the following :

- Plan the agricultural enterprise/ business
- Manage the agricultural production process
- Manage the post-production and marketing processes

#### Elements and Performance Criteria

##### *Plan the agricultural enterprise/ business*

To be competent, the user/individual on the job must be able to:

- PC1.** analyse the demand and supply of the relevant agricultural produce in the market
- PC2.** identify the target customers and assess their needs and expectations with respect to the quality and price of the produce
- PC3.** identify various types of agricultural entrepreneurship/ business opportunities
- PC4.** plan agricultural production with the use of relevant and efficient technologies for availing funds
- PC5.** identify appropriate and authentic advisory services/Government authority for skill upgradation to successfully plan and implement business activities
- PC6.** prepare a basic business plan for the agricultural entrepreneurship/business activities
- PC7.** identify appropriate sources of funding for the agricultural entrepreneurship/ business
- PC8.** coordinate with the relevant government authorities to subscribe to the relevant government schemes and programs to benefit from them
- PC9.** ensure compliance with the government structural reforms and framework along with the applicable rules and regulations while setting up the agricultural enterprise/ business

##### *Manage the agricultural production process*

To be competent, the user/individual on the job must be able to:

- PC10.** select and arrange the necessary resources for the business operations
- PC11.** ensure the use of relevant and efficient production technologies as per planning and availability of funds
- PC12.** follow the recommended practices for efficient input resource management
- PC13.** optimise the production processes and output through the amalgamation of existing practices with smart technologies
- PC14.** follow the recommended sustainability practices during agricultural production to prevent adverse impacts on the environment and produce viz. deforestation, loss of biodiversity, soil degradation, etc.

## Qualification Pack

### *Manage the post-production and marketing processes*

To be competent, the user/individual on the job must be able to:

- PC15.** ensure the availability of proper storage infrastructures and facilities post-production of the produce as per the industry quality standards
- PC16.** collect information related to the wholesale and retail price of produce
- PC17.** calculate the costs incurred and determine the price of the produce for profitability
- PC18.** ensure that the cost of production, transportation, and marketing are considered while calculating the cost and setting the price for the produce
- PC19.** collect information related to various subsidies/funds offered by the government, authorised state units and other financial institutions involved with the promotion of the produce
- PC20.** select appropriate marketing channels for the produce, considering the relevant requirements and constraints
- PC21.** identify various risks to production and post-production processes and manage them appropriately
- PC22.** undertake outreach programs to promote agricultural products and services, and expand agri-business
- PC23.** prepare and execute a marketing plan considering the 4Ps i.e. product, price, promotion, and place and 4As i.e. acceptability, affordability, accessibility, and awareness
- PC24.** use the relevant digital services such as e-commerce, e-payments, electronic record-keeping, etc.
- PC25.** use efficient post-production logistics means to improve the supply quantity, reduce the cost to the consumer, and increase demand consequently
- PC26.** ensure all the relevant information such as quality and quantity of produce, date of manufacture, batch number, and sale is recorded electronically and/ or manually
- PC27.** coordinate with the various stakeholders for efficient and sustainable agri-business growth and development

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** how to analyse the demand and supply of the relevant agricultural produce in the market
- KU2.** the process of identifying the target customers and assess their needs and expectations with respect to the quality and price of the produce
- KU3.** how to identify various types of agricultural entrepreneurship/ business opportunities
- KU4.** how to prepare a basic business plan for the agricultural entrepreneurship/business activities
- KU5.** appropriate sources of funding for the agricultural entrepreneurship/ businesses
- KU6.** the relevant government schemes and programs
- KU7.** the importance of ensuring compliance with the government structural reforms and framework, along with the applicable rules and regulations
- KU8.** various resources required for agricultural production
- KU9.** the process of planning agricultural production and the use of relevant technologies to enhance production

## Qualification Pack

- KU10.** the importance of ensuring no cause adverse impact on the environment and produce during production
- KU11.** the recommended practices to be followed for efficient input resource management
- KU12.** the process of optimising the production processes and output through the amalgamation of existing practices with smart technologies
- KU13.** the recommended sustainability practices to be followed during agricultural production to prevent and deal with deforestation, loss of biodiversity, soil degradation, etc.
- KU14.** how to collect information related to the wholesale and retail price of agricultural produce
- KU15.** how to calculate the economics of the produce viz. production cost, price of the produce, B:C Ratio etc.
- KU16.** relevant government schemes with the provision of subsidies/funds for the promotion of agricultural produce
- KU17.** the process of selecting appropriate marketing channels for marketing agricultural produce, and the applicable requirements and constraints
- KU18.** the relevant buyers of different types of agricultural produce such as co-operatives, retailers, local vendors, wholesalers, e-trading portals, marketing companies, exporters, etc.
- KU19.** how to identify and manage various risks to production and post-production processes
- KU20.** how to undertake outreach programs to promote agricultural products and services, and expand agri-business
- KU21.** the 4Ps i.e. product, price, promotion, and place and 4As i.e. acceptability, affordability, accessibility, and awareness considered while preparing and executing a marketing plan
- KU22.** use of the relevant digital services such as e-commerce, e-payments, electronic record-keeping, etc.
- KU23.** the importance of using efficient post-production logistics
- KU24.** the importance of maintaining various records accurately

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** maintain work-related notes and records
- GS2.** read the relevant literature to get the latest updates about the field work
- GS3.** communicate politely and professionally
- GS4.** listen attentively to understand the information being shared
- GS5.** plan and schedule tasks for efficient time management
- GS6.** identify possible disruptions to work and take appropriate preventive measures
- GS7.** take quick decisions to deal with workplace emergencies/ accident
- GS8.** evaluate all possible solutions to a problem to select the best one

## Qualification Pack

### Assessment Criteria

### AGR/N9922: Engage in collective farming/activity

#### Description

This OS unit is about working collectively in Producer Groups (PGs), Farmers Interest Groups (FIGs), Self-Help Groups (SHGs) and other similar groups to attain a common objective.

#### Scope

The scope covers the following :

- Create PGs/ FIGs/ SHGs
- Prepare for the PG/ FIG/ SHG operations
- Conduct group meetings and training sessions
- Carry out collective farming/ activities

#### Elements and Performance Criteria

##### *Create PGs/ FIGs/ SHGs*

To be competent, the user/individual on the job must be able to:

- PC1.** identify farmers/ groups with the common interests in the area
- PC2.** create Producer Groups (PGs)/Farmers Interest Groups (FIGs)/ Self-Help Groups (SHGs), following the applicable rules and regulations

##### *Prepare for the PG/ FIG/ SHG operations*

To be competent, the user/individual on the job must be able to:

- PC3.** organise fundraising activities to support the functioning of the group
- PC4.** establish links with the local government at panchayat level to obtain access to the relevant development programmes and funds
- PC5.** induct subject matter experts (SMEs) in the group
- PC6.** assist in arranging the required Information and Communication Technology (ICT) products for the group
- PC7.** plan the commodity convergence with the relevant developmental programmes
- PC8.** plan optimal production to meet the market and household food security needs

##### *Conduct group meetings and training sessions*

To be competent, the user/individual on the job must be able to:

- PC9.** conduct the initial group meetings to introduce the members, discuss the group objectives, group income-generating enterprises/ activities, methods of operation, etc.
- PC10.** assist in exchanging the domain and technical knowledge such as market or price information, latest technology, and resolving common issues or conflicts through the PG/ FIG/ SHG meetings
- PC11.** organise capacity building exercises such as skill development and training programmes

##### *Carry out collective farming/ activities*

To be competent, the user/individual on the job must be able to:

## Qualification Pack

- PC12.** organise field trials to identify and resolve problems encountered by group members in the field operations
- PC13.** procure/hire advanced and expensive farm machineries/tools and equipment using the group fund for collective use of the group members
- PC14.** establish and manage the group-owned bank of quality seeds/ fertilisers/ pesticides/ tools and equipment, etc.
- PC15.** use the group's credit facility as per the applicable terms and conditions
- PC16.** carry out relevant duties as per own role in the PG/FIG/ SHG such as the group leader/ secretary/ book-keeper, etc.
- PC17.** co-ordinate within the group(s) in procuring inputs in bulk/large-scale farming, packing/transportation/marketing of the produce, etc.
- PC18.** assist in forming forward and backward linkages through the PGs/ FIGs/ SHGs
- PC19.** identify and follow the relevant practices to add value to the produce such as processing, packing, upgrading the quality, etc.
- PC20.** arrange for the regular repair and maintenance of the farm machineries/tools, equipment/tube/bore wells/storage/drying platforms/processing units, etc.
- PC21.** connect and partner with other groups to expand the network and address common problems at a large scale

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the process of preparing for the PG/ FIG/ SHG operations such as fundraising, induction of SMEs, investing in ICT products, etc.
- KU2.** how to establish links with the local government at the panchayat level to obtain access to the relevant development programmes and funds
- KU3.** the process of commodity convergence with the relevant developmental programmes
- KU4.** the importance of planning optimal production to meet the market and household food security needs
- KU5.** the importance of setting the group objectives and deciding the group income-generating enterprises/ activities, methods of operation, benefits, etc.
- KU6.** the importance of organising the PG/FIG/ SHG meetings and training sessions to resolve common concerns and get information about the latest developments in the field of work
- KU7.** the benefits of various capacity building exercises such as skill development and training programmes
- KU8.** the importance and process of conducting field trials to identify and resolve problems encountered by farmers in the field operations
- KU9.** the concept of group-owned bank to provide quality seeds, fertilisers, pesticides, tools and equipment to the member farmers
- KU10.** the process of using the group's credit facility
- KU11.** core collective farming activities such as procuring inputs in bulk, large-scale farming, packing, transportation and marketing of the produce, etc.
- KU12.** the concept and benefits of forming forward and backward linkages

## Qualification Pack

**KU13.** relevant value addition practices such as processing, packing, upgrading the quality, etc.

**KU14.** the benefits of connecting with similar groups to address common problems at a large scale

### Generic Skills (GS)

User/individual on the job needs to know how to:

**GS1.** write relevant notes and reports

**GS2.** read the relevant literature to get latest updates about the field of work

**GS3.** communicate politely and professionally

**GS4.** listen attentively to understand the information being shared

**GS5.** plan tasks for effective use of time

**GS6.** identify possible disruptions to work and take appropriate preventive measures

**GS7.** evaluate all possible solutions to a problem to select the best one

##### *Basic English Skills*

To be competent, the user/individual on the job must be able to:

## Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

### *Career Development & Goal Setting*

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

### *Communication Skills*

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

### *Diversity & Inclusion*

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

### *Financial and Legal Literacy*

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

### *Essential Digital Skills*

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

### *Entrepreneurship*

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

### *Customer Service*

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

## Qualification Pack

**PC28.** follow appropriate hygiene and grooming standards

*Getting ready for apprenticeship & Jobs*

To be competent, the user/individual on the job must be able to:

**PC29.** create a professional Curriculum vitae (Résumé)

**PC30.** search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

**PC31.** apply to identified job openings using offline /online methods as per requirement

**PC32.** answer questions politely, with clarity and confidence, during recruitment and selection

## Assessment Guidelines and Assessment Weightage

### Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down the proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on the knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/optional set of NOS.
4. Individual assessment agencies will create unique question papers for the theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score a minimum of 70% of % aggregate marks to successfully clear the assessment.

## Qualification Pack

7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

### Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

### Assessment Weightage

### Glossary

|  |  |
|--|--|
| <b>Sector</b>                                | Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.  |
| <b>Sub-sector</b>                            | Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.   |
| <b>Occupation</b>                            | Occupation is a set of job roles, which perform similar/ related set of functions in an industry.  |
| <b>Job role</b>                              | Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.  |
| <b>Occupational Standards (OS)</b>           | OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts. |
| <b>Performance Criteria (PC)</b>             | Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.  |
| <b>National Occupational Standards (NOS)</b> | NOS are occupational standards which apply uniquely in the Indian context.   |
| <b>Qualifications Pack (QP)</b>              | QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.   |
| <b>Unit Code</b>                             | Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'  |
| <b>Unit Title</b>                            | Unit title gives a clear overall statement about what the incumbent should be able to do.  |
| <b>Description</b>                           | Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.   |
| <b>Scope</b>                                 | Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.  |

## Qualification Pack

|   |  |
|---|--|
| <b>Knowledge and Understanding (KU)</b> | Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.   |
| <b>Organisational Context</b>           | Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.   |
| <b>Technical Knowledge</b>              | Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.   |
| <b>Core Skills/ Generic Skills (GS)</b> | Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles. |
| <b>Electives</b>                        | Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.  |
| <b>Options</b>                          | Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.  |
