We are writing this letter to all the empanelled vendors by CERT.IN for security audit of the web applications and hence to you also, as you are one of them, listed on the CERT.IN website. National Informatics Centre, Chhattisgarh State Centre has developed software for Chhattisgarh State Skill Development Authority under Microsoft platform using .NET as frontend and MS SQL Server as back end. The software consists of 9 modules and a web service whose details are given in the annexure. Department and NIC are interested in getting the Web Application security audited by one of the empanelled vendors and to get a security audit clearance certificate to enable us host the software in the public domain.

The vendor shall audit the Web Application using necessary tools, as well as manually and give us the list of security issues with a suggestion on how to fix the issue. Our developers shall fix the issues and re-submit the application for re-verification within 3 days after receiving the list of issues. Vendor shall repeat the process till all the issues are fixed and finally give a clearance certificate separately for each module. In case our developers are not able to solve any particular issue, vendor shall provide necessary guidance either personally or through video conference and ensure that the issue is fixed. The time limit for clearing all the modules has been fixed as 30 days from the date of work order.
